Catch Connect Wellesley Service Change Announcement

On July 1, 2026 MWRTA will implement changes designed to improve reliability and streamline service to the Wellesley Catch Connect service area.

Needham Service Change: Catch Connect will no longer provide service into Needham. With the recent accessibility improvements at the Wellesley Square Commuter Rail Station, riders now have direct ADA Accessible Station access to the MBTA in Wellesley.

Waban Service Change: Catch Connect will no longer provide service to the Waban Green Line Station, but will continue to service the Woodland Station. This stop consolidation will improve overall travel efficiency for those connecting to the Green Line.

Babson Campus Service Change: Catch Connect vehicles will no longer circulate and make stops throughout the Babson Campus. Babson service will be consolidated into two designated stops:

1. Knight Parking Lot by Malloy Hall
2. Post Office – 231 Forest St.

Centralizing the pick-up and drop off points allows service to be faster, more efficient, and more reliable. Riders will continue to have connections to MWRTA's Route 1 at the Babson Knight Lot, providing service to the Natick Mall and other destinations further in the MWRTA service region.

These changes are part of MWRTA's ongoing commitment to providing reliable and efficient service, enhancing mobility, and creating a better experience for all riders. Please call (508) 283 – 5083 or email info@mwrta.com with any questions regarding the upcoming changes.
